

# Who we are at a glance

South Metropolitan Health Service delivers hospital and community-based public health care services to a population of more than 630,000 within a catchment area stretching 3,300 square kilometres across the southern half of Perth.

We have a strong focus on improving the health of Aboriginal people and providing access to culturally appropriate health care.

## Our hospital network includes:

- Fiona Stanley Hospital
- Rockingham General Hospital
- Fremantle Hospital
- Murray District Hospital
- Peel Health Campus delivered as a public private partnership with Ramsay Health Care.

## We offer care to adults and children across a range of clinical services:

- medical care
- surgical
- emergency
- rehabilitation and aged care
- coronary care
- cancer care
- intensive and high dependency
- mental health
- paediatric
- obstetric and neonatal
- palliative care
- primary and population health.

## We are also home to several statewide services including:

- State Adult Burns Service
- State Rehabilitation Service
- State Hyperbaric Service
- Heart and Lung Transplant.

Our network of hospitals and community-based health services work closely with our community partners including GPs, local government and population health services to enhance the recovery and rehabilitation outcomes of our patients and clients.

# In 2015/2016, more than 880,000 people accessed our service to receive care and treatment.

More than **150,000 people** stay on our wards each year and **49%** are aged 60 years or older.

The delivery of clinical service is sustained by a team of more than **8,900 staff**.

More than **200,000** people receive emergency care and/or treatment every year.

We see more than **half a million** people in our outpatient clinics each year.

Our transplant team has changed the lives of **70 patients** – with **11** receiving a new heart, **22** receiving lung transplants and **37** receiving kidney transplants.

There were more than **2,500** births across our hospital network.

Mental Health community-based teams saw more than **13,300** patients in their **home** or a **community** setting.

More than **2,700** patients received in excess of **23,000** occasions of service in their home or in a community setting after their time in hospital.

More than **24,500** children received emergency treatment during 2016, with more than **1,600** of these patients being admitted to a paediatric ward.

*correct as at January 2017*
